## *Ten Years — And the Next*

- ¶ Ten years may only mark the span of childhood in human life, ten years in century-old industries may be only a brief and dull chapter, but ten years in the motion picture industry means something.
- ¶ So, while BOX OFFICE DIGEST is not yet ready to sprout a beard or reach for a cane, we feel somewhat solid and settled as we present herewith the Tenth Anniversary edition.
- ¶ And we again take the opportunity to thank the loyal friends who have made its impressive size possible. While we also congratulate them individually on the sort of company they are found in collectively.
- ¶ Yes, we have always been proud of the representative character of BOX OFFICE DIGEST friends, and never more so than this year. They are the cream of the industry.
- ¶ Events occurring round and about us on this Tenth Anniversary give cause for considerable interesting speculation regarding the Eleventh Anniversary.
- ¶ Things are happening. Next year will see a new Universal-International organization represented, the important activities of Einfeld-Loew in Enterprise will be a factor, a new Eagle-Lion will have swung into action, Howard Hawks' Monterey Pictures will be among other new independents representing top creators, United States Pictures, Robert Riskin and Liberty's combination of directorial genius will have established their place.
- ¶ Hal Wallis will have rounded out his second year of importance in big scale independent activity. The strength of continued performance delivery will have added to the stature of such independents as Sam Goldwyn, Walter Wanger, Ben Bogaus, Hunt Stromberg, Robert Golden, Hakim Brothers, Seymour Nebenzal's Nero productions.
- ¶ Interesting it is, indeed, to attempt to visualize the picture scene, both domestic and world-wide, a year from this, our happy Tenth Anniversary.

EDITOR'S NOTE: The financial statements published above are for the fiscal year from January 1st to December 31st if such reports were published; if not, they are for the nearest similar period. The BOX OFFICE DIGEST figures and statistics were compiled by NORMAN WEBB. The financial statements were furnished through the courtesy of E. F. HUTTON AND COMPANY, members of the New York Stock Exchange.

## Studios Have Best Net Profit in 1945

Since the invention of motion pictures the year 1945 has been the most successful with the combined earnings of the major producing-distributing companies running over a net profit of \$100,000,000.00 and after excise corporation taxes with a net of approximately \$66,500,000.00, not including the earnings of PRC and United Artists, who issue no financial statements. While the profit of PRC was probably small, United Artists Corporation must have earned considerably in excess of \$5,000,000.00.

After V-J Day, Wall Street warned the studios that production

costs would have to be cut as there would probably be a slump. Instead, theatre box offices were even doing more now than they did during the war, and in several instances admission prices have been raised and the attendance is even greater. Some of the earnings for the first quarter of 1946 have already been published and are even stronger than the similar period of 1945. So, it rather looks as if motion picture stocks, which are at an all-time high, are still a sound investment despite strikes and unsettled conditions.

¶ *With the numerous demands on our patriotism and our good will — members of the Motion Picture Industry should never forget the Community Chest.*

¶ *Its appeal is made only once a year — but its job is an all year one. And it covers a multitude of agencies that could well swamp our generous picture folk.*

¶ *All for the single price — and privilege — of admission, and only once a year.*
